POWER. PERFORMANCE. ATTITUDE.

AMERICAN-MADE MUSCLE

Every Bad Boy commercial and residential zero-turn mower is made in the USA at our headquarters in Batesville, Arkansas. We use American steel and the highest quality materials to build the strongest, most powerful, most comfortable and best performing zero-turn mowers on the planet.

Bad Boy is driven to make every mower even better than the last, developing innovations like Bad Boy's first-of-its kind 3-link suspension.

Our R&D experts are hard at work creating the next generation of mowers, pushing the tech, features, comfort, engineering and performance of even further.

BUILT RIGHT FROM DAY ONE

We pack more in our zero-turn mowers so you can get more out of them. It doesn't matter if you choose our commercial or residential models, every Bad Boy mower shares the same heavy-duty, last-a-lifetime construction.

Our reputation rests on our all-steel "heavier-duty than they have to be" cut and welded rails. And before any mower leaves our plant, we give it a spin for quality first with our 112-point factory inspection.

It takes longer to build a mower like ours than to stamp one out, but it's the only way to guarantee that we won't just out-mow the competition, we'll outlast it as well.

ADVANCED CHUTE SYSTEM

With the advanced chute system's variable stage all-steel shield, you can effectively and accurately control the discharge from your zero-turn mower. Closing the Advanced Chute System completely prevents discharge into flower beds, driveways and swimming pools.

In high-density areas where flying debris can damage windows, vehicles or even people, keeping the advanced chute at a semi-closed position forces debris down immediately, preventing straight line discharge at speeds of over 320 km/h!

Built for commercial lawn and garden professionals and zero-turn mower homeowners alike.

Plus, the Advanced Chute System also turns your mower into a powerful mulching machine, perfect for autumn leaf cleanup! You can easily control clippings and debris for quicker, easier lawn care.
