TWIN DISC SPREADERS

RO-C 700 | ROTAFLOW

- 10-230 kg/min output
- Working width: 9-18 metres
- Hopper capacity: 700 litres
- Controlled either manually or hydraulically
- RotaFlow system - smooth acceleration of fertiliser
- FlowPilot for quick and easy adjustment
- Optimal spreading along borders
- Optional extensions available for more capacity

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
RO-C 700	\$11,950	\$13,145

**Working width depending on fertiliser type and type of vanes

RO-M1100 | HYDRAULIC CONTROL

- 10-320Kg/min output
- Working width: 10-28 metres
- Hopper capacity: 1,100 litres
- RotaFlow system - smooth acceleration of fertiliser
- FlowPilot for quick and easy adjustment
- Optimal spreading along borders
- Optionally electric control from the cab available
- Optional extensions available for more capacity

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
RO-M1100	\$16,630	\$18,293

**Working width depending on fertiliser type and type of vanes

RO-XL 1875 | HYDRAULIC CONTROL

- 10-320Kg/min output
- Working width: 12-54 metres
- Hopper capacity: 1875
- High capacity model
- FlowPilot on each spreading disc
- Optional extensions available for more capacity

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
RO-XL 1875	\$24,950	\$27,444

**Working width depending on fertiliser type and type of vanes

RO-EDW | ISOBUS COMPATIBLE

- 10-320Kg/min output
- Weighing range model
- Unique reference sensor optimal spreading
- FlowPilot dashboard on each spreading disc
- Hopper capacity 1875 litres
- Working widths from 12m up to 54m
- Optional extensions available for more capacity

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
RO-EDW	\$38,990	\$42,889

**Working width depending on fertiliser type and type of vanes

RO-EDW | GEOSPREAD IDC

- 10-320Kg/min output
- Working width: 12-54 metres
- Hopper capacity: 1,875 litres
- RotaFlow system - smooth acceleration of fertiliser
- Highly accurate weighing system and reference sensor
- Individual section control with sections of 1 metre
- MULTIRATE: multiple rates within a working width
- Intelligent Disc Control - independent disc speed left and right
- Optional extensions available for more capacity

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
RO-EDW GEOSPREAD IDC	\$67,450	\$74,195

***Working width depending on fertiliser type and type of vanes*

RO-XXL EDW | GEOSPREAD ISOBUS

- 10-540Kg/min output
- Working width: 12-45 metres
- Hopper capacity: 3,450 litres
- High speed spreading via 8 high capacity vanes per disc
- Highly accurate weighing system and reference sensor
- ISOBUS compatible and AEF certified
- MULTIRATE: multiple rates within a working width
- Optional extensions available for more capacity

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
RO-XXL EDW GEOSPREAD ISOBUS	\$57,720	\$63,492

***Working width depending on fertiliser type and type of vanes*

RO-XXL EDW | GEOSPREAD IDC

- 10-320Kg/min output
- Working width: 12-54 metres
- Hopper capacity: 3,450 litres
- High speed spreading via 8 high capacity vanes per disc
- Highly accurate weighing system and reference sensor
- Individual section control with sections of 1 metre
- MULTIRATE: multiple rates within a working width
- Intelligent Disc Control - independent disc speed left and right
- Optional extensions available for more capacity

MOWERS

R310 | NON CONDITIONER MOWER

- 3D Ground Tracking Technology
- Unique Forward/Back Movement of 12°
- Transverse Movement of 17°
- Unique Stone Protection
- Mechanical Break Back Protection
- Heavy-Duty, Fully Welded Cutter Bar
- Heavy-Duty 1,000 or 540rpm Driveline
- Low Profile Front Edge
- Quick Fit Blades
- 25mm (1") Thick Gears
- Adjustable Swathing Discs (Optional)

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
R310	\$39,450	\$43,395

R3100 | REAR TINE MOWER CONDITIONER

- Mechanical Break Back
- Springs Provide Excellent Ground Following Ability
- Vertical Parking Stand
- Patented Constant Ground Pressure
- 17° Transverse Pivot Range (Left / Right Movement)
- 12° (Forward / Back Movement)
- Unique Cutter Bar Protection
- 3D Ground Contour Tracking
- 110° Transport Position
- Pull Type Mowing System

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
R3100	\$46,200	\$50,820

F3100 | FRONT TINE MOWER CONDITIONER

- Tubular Frame with Integrated Suspension Design
- Springs Provide Excellent Ground Following Ability
- Automatic Bed Angle Adjustment
- Patented Constant Ground Pressure
- 17° Transverse Movement (Left / Right Movement)
- 500mm Adaptive Range (Up / Down Movement)
- Excellent Headland Height Clearance of Over 600mm
- Foldable Guards Give Optimum Access to the Cutter Bar
- Narrow Transport Width Provides Excellent Visibility

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
F3100	\$47,950	\$52,745

B9600 | BUTTERFLY TINE MOWER CONDITIONER

- Springs Provide Excellent Ground Following Ability
- Hydraulic Width Adjustment
- Patented Constant Ground Pressure
- 17° Transverse Pivot Range (Left / Right Movement)
- 12° (Forward / Back Movement)
- Unique Cutter Bar Protection
- 3D Ground Contour Tracking
- Vertical Transportation and Parking
- Pull Type Mowing System

Combined with Front Mower F3100

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
B9600	\$193,850	\$213,235

**Price includes front mower

RAKE RANGE

R 62-72 | CENTRE DELIVERY RAKE

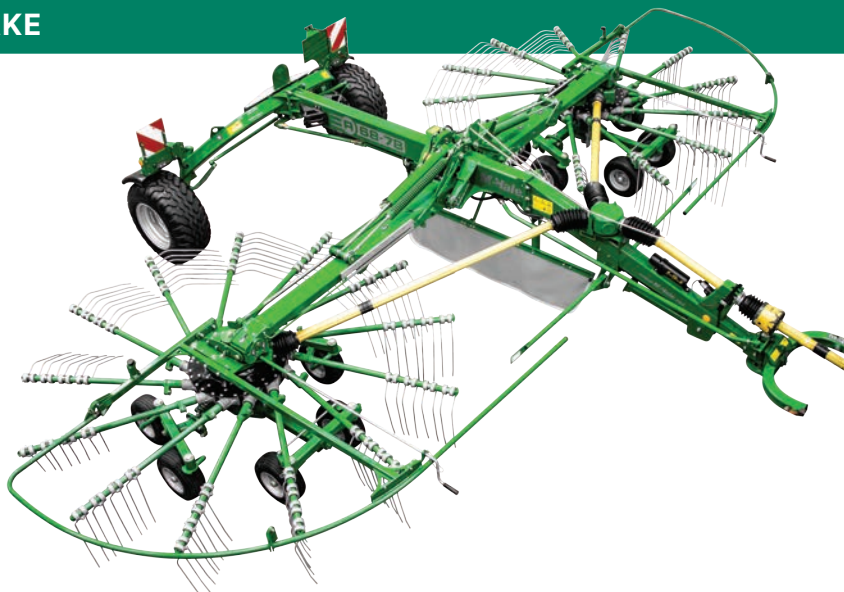

- McHale Heavy Duty Design
- In-cab Width Adjustment
- Steering Axle
- 380/55 – 17 tyres
- Pivoting Headstock
- Heavy Duty Wide Angle Driveline
- Tine Arm Cam Adjustment
- High Speed Running Gear
- Rotor Height Adjustment Indicators
- Transport Height under 4m
- Individual rotor lift

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
R 62-72	\$59,850	\$65,835

R 68-78 | CENTRE DELIVERY RAKE

- McHale Heavy Duty Design
- In-cab Width Adjustment
- Steering Axle
- 380/55 – 17 tyres
- Pivoting Headstock
- Heavy Duty Wide Angle Driveline
- Tine Arm Cam Adjustment
- High Speed Running Gear
- Rotor Height Adjustment Indicators
- Transport Height under 4m
- Individual rotor lift

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
R 68-78	\$64,850	\$71,335

PROPEL TEDDERS

PROPEL M6-770 TEDDER

- McHale PROPEL M6-770 6-rotor, linkage tedder with a working width of 7.7M.
- 7 double-hooked tines on each rotor grip the crop to clean the ground before spreading it evenly
- The pivoting of the machine behind the headstock also allows for easy maneuverability and increased stability when in transport and field operation.

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
M6-770	\$39,645	\$43,610

PROPEL T8-1020 TEDDER

- McHale PROPEL T8-1020 is a high capacity trailed tedder fitted with 8-rotors to provide a working width of 10.2M.
- Wide transport tires in front of the rotors allow the rotors to float freely, providing superior floatation and help prevent soil contamination.
- When tedding the headlands or around obstacles, the Headland Management System can be hydraulically folded into position by the operator in the cab.

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
T8-1020	\$77,261	\$84,987

PROPEL T10-1260 TEDDER

- McHale PROPEL T10-1260 is the largest machine in the range. This trailed tedder is equipped with 10-rotors to provide a working width of 12.6M
- The McHale ProPel T10-1260 can be quickly and neatly folded onto the chassis at a transport width under 3m
- A heavy-duty driveline is fitted as standard to all machines in the McHale ProPel Tedder range.

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
T10-1260	\$94,739	\$104,213

INTEGRATED BALER WRAPPERS

FUSION 4 PRO | CHAMBER BALER WRAPPER

- 2.1m Profi-Flo Pick-Up
- 25 Knife Heavy Duty Feed Rotor
- Drop Floor Unblocking System
- 50 & 55 mm Bale Chamber Bearings*
- 1¼" Chain on the Bale Chamber
- Automatic Progressive Greasing System
- Automatic Oiling System (with Lube Interval Adjustment & Alarm)
- Vertical Wrapping Ring with Film Break Sensors
- ISOBUS Compatibility
- 560/60-22.5 Tyres
- 18 Roller Bale Chamber
- 4 Bar Pivot Stretch Netter

* 55 mm bearings fitted to rollers with long shafts and double sprockets

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
Fusion 4 Pro	\$257,750	\$283,525

FUSION 4 PLUS | INTEGRATED BALER WRAPPER

- 2.1m Profi-Flo Pick-Up
- 25 Knife Heavy Duty Feed Rotor
- Drop Floor Unblocking System
- 50 & 55 mm Bale Chamber Bearings*
- 1¼" Chain on the Bale Chamber
- Automatic Progressive Greasing System
- Automatic Oiling System (with Lube Interval Adjustment & Alarm)
- ISOBUS Compatibility
- 18 Roller Bale Chamber
- Film or Net Binding
- Vertical Wrapping Ring with Film Break Sensors
- 650/50x 22.5 tyres
- 1000 Rpm gear box

* 55 mm bearings fitted to rollers with long shafts and double sprockets

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
Fusion 4 Plus	\$275,000	\$302,500

INTEGRATED BALER WRAPPER

FUSION VARIO PLUS | VARIABLE CHAMBER INTEGRATED BALER WRAPPER

- 2.1m Profi-Flo Pick-Up
- Film or Net Binding
- ISOBUS/ ISO-Play
- 2x Inbuilt Camera System
- Drop Floor Unblocking System
- Double Drive Variable Bale Chamber
- 15 Knife Chopper Unit with Heavy-Duty Rotor
- Single Belt Bale Chamber with Endless Belt
- Bale Shape Assist Indicators
- Patented Bale Transfer Delivering Higher Output
- High Speed Vertical Wrapping Ring
- Spring Tine Crop Roller
- 650/50× 22.5 tyres

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
Fusion Vario Plus	\$284,990	\$313,489

VARIABLE CHAMBER ROUND BALERS

V6740 | NON CHOPPER VARIABLE CHAMBER BALER

- 2.1m Profi-Flo Pick-Up
- Heavy Duty Feed Rotor
- Drop Floor Unblocking System
- 50 mm Bale Chamber Bearings*
- 1¼" Chain on the Bale Chamber
- Centralised Greasing Blocks (Manual Greasing)
- Continuous Oiling System
- Expert Plus Control Console
- 460/65/20 Tyres
- High Performance Netter
- Bale Kicker
- Mechanical Tailgate Locking
- Drop Floor Sensor
- 3-Endless Belts / Single Belt (Optional)
- Bale Shape Assist Indicators

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
V6740	\$111,176	\$122,293

* 55 mm bearings fitted to rollers with long shafts and double sprockets

VARIABLE CHAMBER ROUND BALERS

V6750 | 15 KNIFE CHOPPER VARIABLE CHAMBER BALER

- 2.1m Profi-Flo Pick-Up
- 15 Knife Chopper with Heavy Duty Rotor
- Drop Floor Unblocking System
- 3-Endless Belts
- Continuous Oiling System
- High Performance Stretch Netter
- Mechanical Tailgate Locking
- 1¼" Chain on the Bale Chamber
- Expert Plus Control Console
- 50mm (2") Double Race Chamber Bearings
- Knife Pressure Display
- Knife Position Sensor
- Drop Floor Sensor
- 500/50/22.5 Tyres
- Bale Kicker

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
V6750	\$128,284	\$141,112

V6760 | FULLY AUTOMATIC VARIABLE CHAMBER BALER

- 2.1m Profi-Flo Pick-Up
- 15 Knife Chopper with Heavy Duty Rotor
- Drop Floor Unblocking System
- 3-Endless Belts
- Automatic Greasing
- Continuous Oiling System
- High Performance Stretch Netter
- Mechanical Tailgate Locking
- 1¼" Chain on the Bale Chamber
- ISOBUS/ISO-Play
- 50mm (2") Double Race Chamber Bearings
- Knife Pressure Display
- Knife Position Sensor
- Drop Floor Sensor
- 500/50/22.5 Tyres
- Active Bale Kicker

F5600 Plus	\$152,854	\$168,130

ROUND BALE WRAPPERS

991 BE | FULLY AUTOMATIC TRAILED WRAPPER

- Expert Control Console (Fully automatic cycle)
- Auto Load Lift Arm Function
- Film Break Sensor
- Automatic Cut & Hold System
- McHale Patented Ground Supported Damper
- Capacity to carry 7 rolls of film (6 & 1)
- 750mm Quick Fit Film Dispenser
- Ability to static wrap when using the optional remote control

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
991 BE	\$61,100	\$67,210

991 HIGH SPEED | TWIN DISPENSER ROUND BALE WRAPPER

- Expert Control Console (Fully automatic cycle)
- Auto Load Lift Arm Function
- Film Break Sensors
- Automatic Cut & Hold System
- McHale Patented Ground Supported Damper
- Capacity to carry 8 rolls of film (6 & 2)
- 750mm Twin Film Dispensers
- Quick Fit Dispenser Film Change

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
991 High Speed	\$66,144	\$72,758

ORBITAL HIGH SPEED | TWIN DISPENSER ROUND BALE WRAPPER

- Fully Automatic Operation
- Patented High-Speed Bale Loading
- High-Speed Vertical Wrapping Ring
- Wrap Bales from 1.1m – 1.45m
- Proven and Reliable Cut & Hold System
- Gentle Bale Tip after Wrapping
- Film Break Sensors
- Facility to Wrap with One Roll
- Easy Film Loading
- Expert Plus Control Console

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
Orbital	\$76,856	\$84,541

SQUARE BALE WRAPPERS

998 | SQUARE BALE WRAPPER

- Fully Automatic Electronic Control
- In-cab Control of Bale Size and Film Layer
- PTO Driven Load Sensing Hydraulics
- Hydraulic Drawbar Movement
- Continuous Cycle Function (Load / Wrap / Drop Bale)
- Patented Oscillating Rollers (for Even Wrap Application and Bale Rotation)
- Automatic Bale Levelling
- 2 X 750mm Dispensers
- Hydraulic Cut & Hold
- Film Break Sensors
- Quick-Fit Dispenser Film Change
- Film Replacement Loading Step
- External Dispenser Index Button
- 12 Roll Storage (10 in Storage and 2 in Dispensers)
- Low Ground Pressure Tyres with Braked Axle

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
998	\$193,440	\$212,784

STRAW BLOWER & BALE FEEDER

C460 | TRAILED SILAGE FEEDER AND STRAW BLOWER

- Twin Speed Gearbox for Different Crops
- 300° 3 Stage Feed Chute
- Joystick Chute Control
- External Loading Controls
- Independent Rotor Drive with Hydraulic Activation
- Clever Machine Body Design

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
C460	\$60,788	\$66,866

ROUND BALE HANDLER

R5 | ROUND BALE HANDLER

- On the R5 round bale handler one of the arms can be locked in position using pins, so movement only occurs in the other arm. This is useful when stacking round bales on a trailer or in confined spaces and sheds.

PRODUCT CODE	PRICE EX. GST	PRICE INCL. GST
R5	\$4,670	\$5,137

3PL DISC MOWERS

The Kverneland 2324M mower is designed for smaller mowing operations. With a working width of 2.40m and a corresponding weight of 470kg, this mower is perfect for farmers who need a compact mower with low power requirements.

- Designed for smaller mowing operations
- With a working width of 2.40m
- Weight of 470kg
- Compact mower with low power requirements

Kverneland offers a rear mounted disc mower series with working widths of 2.80m – 3.16 m. Kverneland 2600 M series offers reliable performance, easy handling and high output at low power requirements.

- Rear mounted disc mower series
- Working widths of 2.80m - 3.16 m
- Reliable performance, easy handling and high output at low power requirements

PRODUCT CODE	DESCRIPTION	PRICE EX. GST	PRICE INCL. GST
2324	2.4m 6 Disc 3PL plain disc mower with inner skid only and RHD swath board. 540rpm (Standard blades)	\$18,148	\$19,963
2628	2.8m 7 Disc 3PL plain disc mower with inner skid only and RHD swath roller. 540rpm (ProFit blades)	\$24,939	\$27,432
2632	3.2m 8 Disc 3PL plain disc mower with inner skid only and RHD swath roller and hill side kit. 540rpm (ProFit blades)	\$26,590	\$29,242

3PL & FRONT MOUNTED DISC MOWERS

The Kverneland 2800 M rear mounted range boasts an extensive 3.16m – 4.00m working width with corresponding weights of only 870kg -1045kg. This means the machines can be operated with tractors starting from only 40hp, making them attractive machines for farmers with smaller tractors, who still need to cut substantial areas.

Paired with the Kverneland 2832 F front mounted mowers, the joint working width is up to an amazing 6.80m.

- Extensive 3.16m - 4.00m working width
- Weights of only 870kg -1045kg
- Can be operated with tractors starting from only 40hp

Outstanding ground following ability, easy operation and low weight are among the highlights of these machines. The 2832 F is characterised by excellent cutting performance and ground following ability in all terrain. The design does not require a flexible front linkage, as the movement is built into the machine.

- Ability, easy operation and low weight
- Excellent cutting performance
- Ground following ability in all terrain
- Not require a flexible front linkage

PRODUCT CODE	DESCRIPTION	PRICE EX. GST	PRICE INCL. GST
2832 M (Mounted)	3.2m 8 Disc 3PL plain disc mower without inner skid, RHD swath roller. 540/1000rpm (ProFit)	\$35,828	\$39,410
2836 M (Mounted)	3.6m 9 Disc 3PL plain disc mower without inner skid, RHD swath roller. 540/1000rpm (ProFit)	\$37,336	\$41,069
2840 M (Mounted)	4m 10 Disc 3PL plain disc mower without inner skid, RHD swath roller. 540/1000rpm (ProFit)	\$39,936	\$43,929
2832 F (Front)	3.2m 8 Disc front mounted plain disc mower RHS & LHS swath rollers. 1000/750rpm (ProFit blades) (Note: A Frame NOT included)	\$31,059	\$34,164

3PL TINE DISC MOWER CONDITIONERS

Kverneland 3300 series is fitted with the contemporary Kverneland suspension concept called QuattroLink. The QuattroLink mowers are designed to handle even tougher conditions and boost your productivity, most particularly with its accurate ground following ability and highly flexible working range. The mowing unit is pulled by the 4-arm suspension, fitted onto a fixed carrying arm that allows the mowing unit to float independently over the field, adjusting precisely and instantly to any changes in ground contours.

- Designed to handle even tougher conditions and boost your productivity
- Accurate ground following ability and highly flexible working range
- Mowing unit is pulled by the 4-arm suspension
- QuattroLink

PRODUCT CODE	DESCRIPTION	PRICE EX. GST	PRICE INCL. GST
3332 MR	3.2M 8 Disc 3 PL rear mounted rubber roller conditioner with conditioner plate, hydraulic center suspension and full width spreading device. 1000rpm. Supplied with flipover wide spreading. 150mm mechanical adjustment of overlap.	\$53,500	\$58,850
3332 MT	3.2M 8 Disc 3 PL rear mounted Semi Swing steel tine conditioner with conditioner plate, hydraulic center suspension and full width spreading device. 1000rpm. Supplied with flipover wide spreading. 150mm mechanical adjustment of overlap.	\$53,450	\$58,795
3336 MTV	3.6m 9 disc VARIO 3PL REAR mount tine mower conditioner with QuattroLink suspension and hydraulic adjument on the go	\$59,800	\$65,780

FRONT MOUNTED DISC MOWER CONDITIONERS

The 3300FT/FR series features a host of new improvements to bring operator comfort to a higher level. The complete mower is designed for easy servicing and low maintenance. Kverneland 3300 and 3600 front mounted machines can be used in combination with a variety of mower conditioners, including the 4300 Series, 3300 Series, the 53100 Series, or on its own, making these extremely versatile machines. With a working width of 3.20m-3.60m, the capacity of these machines is substantial.

- Bring operator comfort to a higher level
- Easy servicing and low maintenance
- Working width of 3.20m-3.60m

PRODUCT CODE	DESCRIPTION	PRICE EX. GST	PRICE INCL. GST
3332 FT	3.2m 8 disc front Mounted SemiSwing steel finger conditioner with adjustable plate. 1000 PTO rpm, ProFit blades. Supplied with side lighting kit.	\$49,348	\$54,282
3332 FR	3.2m 8 disc front Mounted chevron roller conditioner, 1000 PTO rpm, ProFit blades, side lighting kit.	\$53,508	\$58,858

ROTARY TEDDERS

The latest additions to Kverneland’s range of mounted tedders feature exceptionally powerful driveline concept and a strong and sturdy design, paired with compact transport dimensions. The Kverneland 8555, 8568, 8576, 8590 and 85112 are designed to perform perfectly in all crop conditions, with a minimum of non-productive maintenance required and compact transport dimensions. Featuring a heavy duty fully closed headstock, these machines will fit perfectly into the operation of professional farmers looking for a strong, effective, and versatile tedder.

- Powerful driveline concept
- Paired with compact transport dimensions
- Minimum of non-productive maintenance required
- Strong and sturdy design
- Perform perfectly in all crop conditions
- Heavy duty fully closed headstock

PRODUCT CODE	DESCRIPTION	PRICE EX. GST	PRICE INCL. GST

SINGLE ROTOR RAKES

Kverneland offers several compact single rotor rakes, designed for use on low horsepower tractors, and which deliver considerable working width.

Kverneland single rotor rakes offer working widths of 3.50m – 4.70m. With the option of pivoting, fixed three-point linkage mounting and a trailed version, there is a model to suit all needs.

- Use on low horsepower tractors
- Working widths of 3.20m - 4.70m
- Option of pivoting, fixed three-point linkage mounting and a trailed version
- Mechanical height adjustment via a crank

PRODUCT CODE	DESCRIPTION	PRICE EX. GST	PRICE INCL. GST
9035	3.5m 10 arm 3PL, side delivery rotary rake with pivoting headstock, Tandem axles & 16×6.50 wheels. With DUO tines	\$13,450	\$14,795
9443	4.3m 11 arm 3PL, side delivery rotary rake with pivoting headstock, Tandem axles & 16×6.50 wheels. With DUO tines	\$19,450	\$21,395
9546	4.6m 13 arm 3PL, side delivery rotary rake with pivoting headstock, Tandem axles, 16×6.50 wheels, Hydro Lift height adjustment & adjustable cam track with DUO tines	\$23,450	\$25,795

TWIN ROTOR RAKES SIDE DELIVERY

The Kverneland 9471 S Evo is designed for maximum flexibility, for raking in a variety of conditions. The twin rotors work independently, from each other, making it possible to collect either one large swath or two smaller night swaths.

These rakes can place two large swaths into one, allowing a total of up to 7.1m crop to be gathered into one swath.

- Maximum flexibility
- Twin rotors work independently
- Possible to collect either one large swath or two smaller night swaths
- Total of up to 7.1m crop to be gathered into one swath

PRODUCT CODE	DESCRIPTION	PRICE EX. GST	PRICE INCL. GST
9471S-EVO	6.6 to 7.1m trailed side delivery rake with Terra Link rotor suspension, hydraulic change over from one 6.6m to two 7.1m swaths, Tandem axles and including Hydraulic lift & fold 2ND swath curtain. Fitted with DUO tines.	\$49,450	\$54,395

TWIN ROTOR RAKES CENTRE DELIVERY

Kverneland 9464 m offers two cost-effective two rotor rakes with strong frames. The rakes produce a nice even centre swath from raking widths of between 6.2m and 7.2m. They are mounted on a strong and stable frame, to ensure long lifetime. Features such as actively steered wheels, the TerraLink Quattro system and hydraulically raised rotors, are standard.

- Cost-effective two rotor rakes with strong frames
- Even centre swath
- Widths of between 6.2m and 7.8m
- Strong and stable frame
- Actively steered wheels
- TerraLink Quattro system
- Hydraulically raised rotors, are standard

The Kverneland 9580 C, 9584 C and 9590 C Hydro are heavy duty two-rotor rakes with working widths up to 8.0m, 8.4m and 9.0m respectively. They are designed for the toughest conditions and feature a high performance oil-bath gearbox and a strong carrier frame. The hydraulically adjustable working and swath width, as well as the ability to make sharp turns of up to 80°, are important features of these rakes. Due to the Hydro axle, the Kverneland 9590 C Hydro has a transport height of less than 4.0m, even without detaching the tine arms.

The Kverneland 9580 C with updated wheel axles provides a transport width below 4m, even with tine arms mounted.

- Heavy duty two-rotor rakes
- Designed for the toughest conditions and feature a high performance oil-bath gearbox and a strong carrier frame
- Hydro axle
- ComfortKit is optionally available
- Working widths up to 8.0m, 8.4m and 9.0m
- Transport width below 4m, even with tine arms mounted
- Ability to make sharp turns of up to 80°

PRODUCT CODE	DESCRIPTION	PRICE EX. GST	PRICE INCL. GST
9464 m	The 9464 M mounted double rotor rake with a 6.4m m working width is ideal for two swaths from a 3.2m mower. It features a robust and durable centre swath rake design with a compact package of features, including a maintenance-friendly. CompactLine gearbox with ten tine arms	\$39,988	\$43,986
9472 C	6.2 to 7.2m 2x11 arm, 2PL centre delivery rotary rake with Terra Link Quattro rotor suspension, active steering and hydraulic adjustable raking width. Fitted with DUO tines.	\$45,188	\$49,706
9580 C	7m to 8m 2x11 arms, 2PL centre delivery rotary rake with Terra Link Quattro rotor suspension, active steering, adjustable cam track and hydraulic adjustable raking width. Fitted with DUO tines.	\$59,748	\$65,722

MULTI ROTOR RAKES CENTRE DELIVERY

The Kverneland 95130C is already equipped with standard features like separate front and rear rotor lift, easy to use electronic control, high performance oil bath gear box, hydraulic adjustment of working and swath width on front and rear rotors. The 95130C PRO is additionally equipped with new solutions to be even more efficient.

ISOBUS solution for professional users

Alongside the identical technical details of the 95130C, the PRO version comes up with advanced operation possibilities thanks to ISOBUS control. All machine functions – operated now on load sensing system – are easily controlled from each ISOBUS-ready terminal such as, for example, IsoMatch Tellus or IsoMatch Tellus Go. With that, users have advanced opportunities to adjust and operate the rake according to the task at hand.

- Separate front and rear rotor lift
- Easy to use electronic control
- High performance oil bath gear box
- Hydraulic adjustment of working and swath width
- ISOBUS solution for professional users

PRODUCT CODE	DESCRIPTION	PRICE EX. GST	PRICE INCL. GST
95130 C PRO	9.2 to 12.5m 2x15 arm, 2PL centre delivery rotary rake with Terra Link Quattro rotor suspension, active steering, adjustable cam track and hydraulic adjustable raking width. Fitted with DUO tines. ISOBUS.	\$183,450	\$201,795

HIGH-PERFORMANCE VARIABLE CHAMBER BALERS

The latest Kverneland 6616 Plus series balers combine good high output performance with market-leading bale density. They benefit from a host of upgrades designed to boost output and reduce maintenance requirements. The 6616 Plus series has been developed for simple operation and offers high capacity in silage, hay and straw. Kverneland 6616 Plus balers have superb intake capacity and produce excellent quality bales in a wide variety of crops. Bale diameter is easily adjusted from the control terminal, while a combination of five belts and three rollers provides instant bale starting in all conditions.

- 2.0 or 2.20m low profile pick-up with small diameter reel for fast and efficient throughput
- Feeder Fork Rotor intake systems for high intake speed
- Parallelogram Drop Floor system for easy unblocking from the comfort of the tractor cab
- Patented PowerBind system for fast and reliable net and twine binding
- Bale chamber concept with three profiled rollers and five 'Mato' laced belts with hydraulic proportional density control
- Simple and intuitive control with the Focus 3 terminal and optional Isobus configurations

The latest Kverneland 6618 Plus series balers combine profitable high output performance with market-leading bale density. They benefit from a range of upgrades designed to boost output and reduce maintenance requirements, keeping operating costs to a minimum. The 6618 Plus series is designed for versatile performance in a wide range of crop conditions. The 6618 Plus series balers have superb intake capacity and produce excellent quality bales in a wide variety of crops. Bale diameter is easily adjusted from the control terminal, while a combination of five belts and three rollers provides instant bale starting in all conditions.

- 2.0 or 2.20m low profile pick-up with small diameter reel for fast and efficient throughput
- DuoFeed Double Feeder Fork or PowerFeed Rotor intake systems for high intake speed
- Parallelogram Drop Floor system for easy unblocking from the comfort of the tractor cab
- Three different bale densities, pre-selected from the tractor cab
- PowerBind with direct net injection for fast and highly reliable netting
- Simple and intuitive control with the Focus 3 terminal and optional Isobus configurations
- 2.0 or 2.2m pick-up with small diameter pick-up reel for fast and efficient throughput.
- Pick-up with 4 or 5 rows of tines respectively.
- Twin cam tracks on the 2.2m wide pick-up.
- Tine bars with two central supports on the 2.2m wide pick-up.
- Small diameter pick-up design.
- Roller crop press is standard on the 2.2m wide pick-up.
- Narrow transport width.

Smart features

COMBO SPREADER

3.8 tonne single-axle

9 tonne tandem-axle

More stainless for longevity
Majority stainless at the rear of the machine, extends longevity of gear where you need it most.

Stainless discs are run via enclosed stainless spinner tubes and two well-proven hydraulic motors. Easily adjustable tapered roller bearings keep discs tight.

Strong plastic bin and chassis
Fertiliser washes off the bin easily. They are corrosion resistant and UV-stabilised. Chassis's have seen a new evolution of painting procedure for extra corrosion protection. Firstly a steel grit abrasive blast, then a thermal-arc pure zinc spray, a primer followed by a final two-pot epoxy top-coat. Tough stuff!

Smart, accurate control (extra)
This Topcon system offers precise control in a user-friendly monitoring system. This technology means the correct application rate is applied regardless of changes in forward speed or changes in product density. It is ISOBUS compatible.

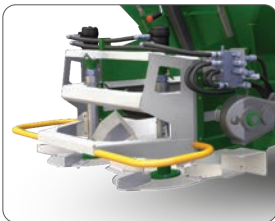

Load cell integration (extra)
Adding load cells to your Topcon SAM Spreader is recommended as calibration is easy. They give you true accuracy as you are weighing the product in your bin. All Topcon machines are load cell ready.

ORCHARD SPREADER

Smart features

More stainless for longevity
Majority stainless at the rear of the machine, extends longevity of gear where you need it most.

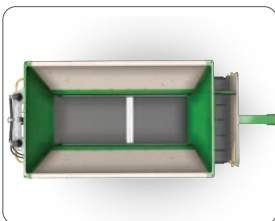

Stainless discs are run via enclosed stainless spinner tubes and two well proven speed adjustable hydraulic motors.

SAM computer controller
Turning on and off and controlling the speed of the 800MM wide floor mat is simple. Just use the intuitive controller inside the cab. The controller is suitable for open cabs due to its high water rating (IP67).

Side conveyor for banding. 2 for 1!
This compact conveyor spreads material in a line to the right hand side of the Orchard Spreader. Great for banding where you need to apply product in a line or a pile. Designed to be in full view of the operator. There is absolutely no change-over time between banding and spreading.

Strong stainless panels
Stainless bins are extremely corrosion resistant. Chassis's have seen a new evolution of painting procedure for extra corrosion protection. Firstly a steel grit abrasive blast, then a thermal-arc pure zinc spray, a primer followed by a final two-pot epoxy top-coat. Tough stuff!

Instant control switch
Simply flick the switch for instant starting and stopping of application. No more anticipating when your product is going to come out.

QUICK HITCH

Smart features

Excellent view
Excellent view of tow-pin and safety latch for safe loading and unloading.

Built for strength
Fully welded construction means the SAM Quick Hitch is engineered for safety and strength.

Self-supporting stand
Designed with a self-supporting stand (when not in use) - allowing quick alignment. No unnecessary manual lifting!

Simple safety latch
An integrated safety latch secures over the tow-eye to lock. CAT-2 lift-arm and top pins are provided (fully replaceable lift-arm, top pins and linch pins).

Different pin sizes
Two tow-pin sizes are available and can be changed out easily. The standard is 40mm designed to work with a 50mm eye on the implement coupling. While the 32mm pin works with a 37mm eye on the implement coupling.

THE GENERAL PURPOSE LEGEND

NUGGET 150/180 & 210

RECOMMENDED FOR TRACTORS UP TO 100HP

For a larger general purpose slasher the Nugget 150, 180 and 210 are designed and built to out perform all competitive machines within their price range.

A hot dip galvanised body for corrosion resistance combined with a smooth top for preventing vegetation build up ensuring a long service life and top performance.

STANDARD FEATURES

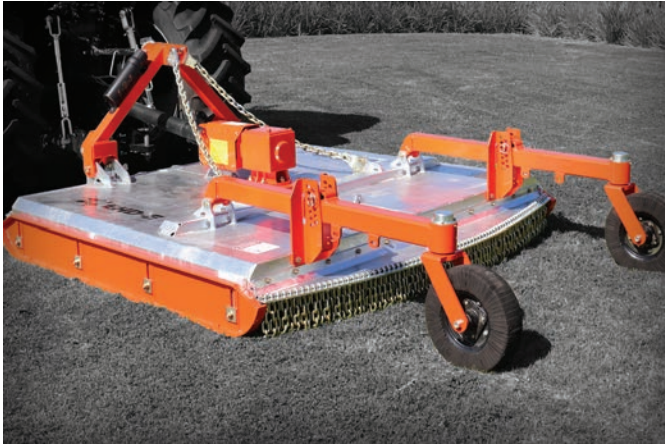

- Complies with the WorkCover Slasher Safety Guide:
 - Extended Front & Rear Apron to protect against foot/blade contact.
 - Front & Rear Chain Debris Guarding.
- Heavy, 4mm, gusseted shoulder steel body
- Easy height adjustment (S4)
- Curved skids to reduce scalping (S4)
- Hot dip galvanized body for corrosion resistance
- Friction clutch protection to safe-guard both the tractor transmission and Nugget drive train
- Latest design, high clearance two piece blade carrier
- Forged, step-down blades for fine, even mowing
- Pivoting head stock with chain back stays for increased performance
- Smooth top for easy clean and reducing vegetation buildup
- Optional rear wheel kit available

TOUGH ALL ROUNDER

EHD-E 180/210/300

RECOMMENDED FOR TRACTORS UP TO **160HP**

HOWARD's EHDE Series is a new model variant utilising the body & blade beam from the EHD series together with a market standard transmission (gearbox and friction clutch) to produce a competitively priced slasher.

The EHDE maintains all the benefits of the EHD Series body with good under-body clearance and the proven multi-leaf alloy spring steel blade beam. You can now have the legendary performance of an EHD with a more price conscious entry level spec.

CONTRACTORS CHOICE

EHD 180/210/240

UNLIMITED HP RATING

The EHD slasher is the benchmark for all slashers. No other brand has our history of rugged reliability and low running costs. Our confidence in the EHD is backed by an unlimited horsepower rating as the gearbox is fully fabricated from steel and fitted with a forged one piece blade beam spindle.

This is all backed up with a **TWO YEAR GEARBOX WARRANTY**. A preferred choice for many contractors and municipal users as the EHD is built for optimum safety, performance and service life.

- Galvanised body
- 5mm body
- Pivoting topmast and chain backstays
- Body is reinforced with full-length tubular gussets on sides
- Adjustable skids with replaceable runner standard on EHD180

THE NEXT GENERATION MOWER FROM HOWARD RLM ROLLER MOWERS

Designed for general mowing in a wider variety of applications including parks, sports ovals, reserves, roadsides and turf farms.

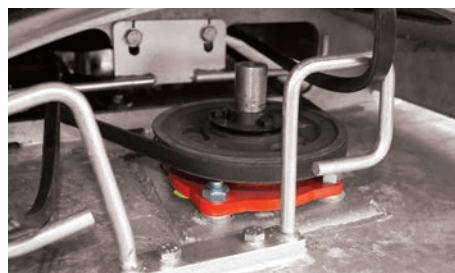

WHAT MAKES RLM A BETTER MOWER?

- Hot dipped galvanised body
- RLM will handle longer grass than competing mowers
- Convenient transport lock
- Hydraulic SAFETY lock out on wings
- Debris guards front and rear
- Minimal internal residue build-up due to open design

Adjustable rollers provides precision height control. Cutting height indicators for even height settings.

Improved belt engagement on larger drive pulleys to reduce slipping in heavier grass conditions.

RLM unique and convenient transport lock.

CONTRACTORS CHOICE

AH/CH 4000 SERIES

The new range of rotary hoes has been designed specifically for Australian conditions. The strong toolbar style design with rubber hull construction substantially reduces soil build up around the rotor that robs horse power and fuel efficiency. More effective in wetter conditions than competitors' machines, AH/CH Rotary hoes allow growers to work the ground earlier, plant earlier and get to market earlier.

AH Series available in 2.5m, 3m, 3.5m & 4m

CH Series available in 4.2m, 4.7m, 5.7m & 6.2m

AH Model

CH Model

- Chain side drives
 - Fabricated toolbar style frame that provides strength and versatility
 - Rubber hull and trailing board prevents soil build up and hp consumption
 - 248RPM rotor on AH Series and 275RPM on the CH Series
 - Single drive AH series
 - Dual drive CH series
- Optional Extras:
 - Crumble roller
 - Rear wheels
 - Toolbars and attachments such as paraploUGH, sub soiling tines and row furrowers

MASCHIO GASPARDO

MULCHING & SHREDDING

**2 YEAR WARRANTY
ON ALL MASCHIO GASPARDO
PRODUCTS**

FEATURES

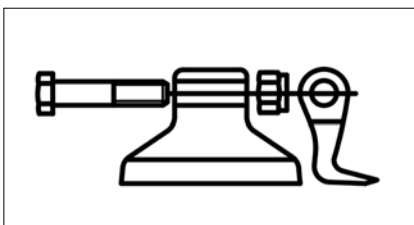

Residue mulching is a very important and somewhat tricky phase as it enhances subsequent decomposition processes, helping residues break down into organic matter. The MULCHERS range, catering to the small and large scale needs of farms and farmers, is a winning solution for dealing with grass, brush, crop residue and prunings.

Every MASCHIO GASPARDO machine - from the lightest, compact models to the heavy-duty high-performance workhorses - is the product of the experience we have gained over the years. Reliability and high quality are the result of continuous innovation and ongoing research.

BUFALO

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-BUFALO	3.10m	130-200hp	\$35,070	\$38,577

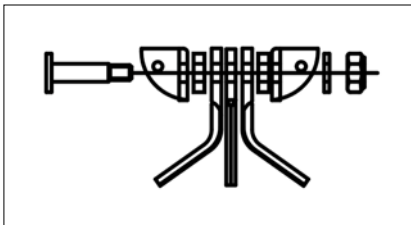

- Reversible Mulcher - 1000 PTO with free wheel
- Double hitch cat 2/3
- Helically disposed tools with anti-damage hammer support
- Hydraulic side shift
- Double skinned frame 5+5 mm

TERMINATOR

MODEL	WORKING WIDTH	HEAD-STOCK	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-TERMINATOR-180	1.72m	Hyd Shift	55-100hp	\$9,555	\$10,510
MG-TERMINATOR-200	1.92m	Hyd Shift	65-100hp	\$9,975	\$10,972

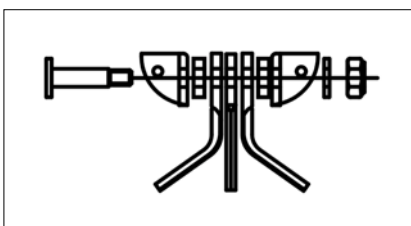

- General purpose mulcher
- Rear roller
- Hydraulic side shift
- Counter Blades for a finer chop
- Gearbox PTO 540 rpm with free wheel
- Y Flail only

CHIARA

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-CHIARA-180S	1.85m	50-90hp	\$17,745	\$19,520
MG-CHIARA-200S	2.05m	55-90hp	\$18,585	\$20,444
MG-CHIARA-250S	2.55m	65-90hp	\$20,475	\$22,523

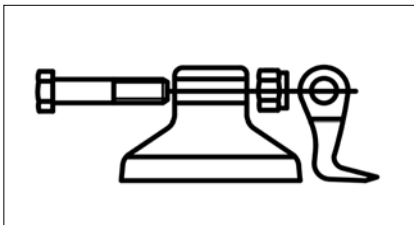

- Wide range of applications; cutting grass, shredding, pruning, etc
- Double skin body combined with double counter knife for ultimate performance
- Moveable headstock
- **Standard with flails and rear steering wheels**

TIGRE

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-TIGRE-210	2.10m	55-140hp	\$17,640	\$19,404
MG-TIGRE-230	2.26m	60-140hp	\$18,365	\$20,201
MG-TIGRE-250	2.57m	65-140hp	\$19,005	\$20,905
MG-TIGRE-300	2.98m	90-140hp	\$20,423	\$22,465

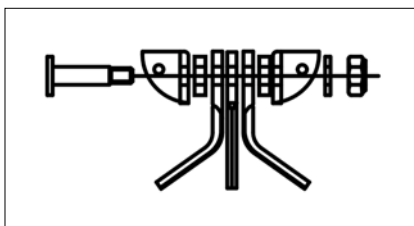

- Wide range of applications; cutting grass, shredding, pruning, etc
- Double skin body combined with double counter knife for ultimate performance
- Moveable headstock
- **Standard with hammers and rear roller**
- **Optional wheel kit available**

HEAVY DUTY MULCHERS WITH MECHANICAL & OPTIONAL HYDRAULIC OFFSET TORNADO

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-TORNADO-250	2.5m	70-150hp	\$23,740	\$26,114
MG-TORNADO-310	3.10m	90-150hp	\$25,989	\$28,589
MG-LEOPARD-320DT	3.20m	140-200hp	\$34,230	\$37,653

- High body multi-purpose professional displaceable mulcher
- Standard with flails and rear roller
- Dual drive transmission on Leopard Mulcher
- Bonnet openable for maintenance
- **Rear wheel standard for Leopard (Tornado optional)**

Leopard DT Mulcher pictured

POWER HARROWS

FEATURES

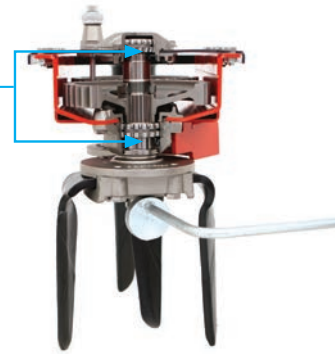

Double-skinned construction:

Comprising a double-skinned trough - with a 6mm-thick inner and 5mm-thick outer - MASCHIO GASPARDO harrows feature a stronger, more rigid construction, delivering high performance under all conditions.

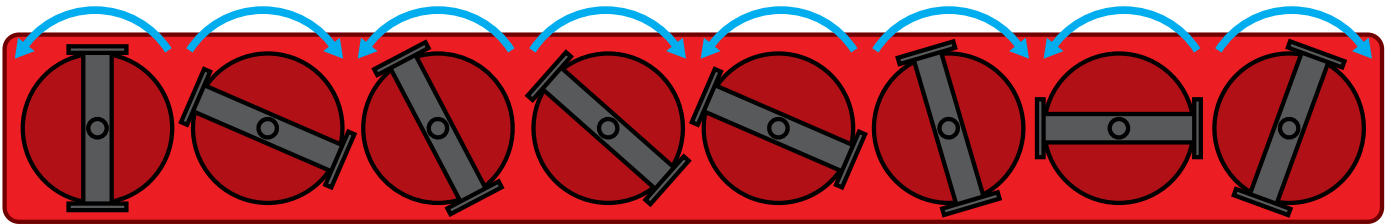

Stability:

Great clearance between top and bottom bearings, reduced load and less vibration combine to deliver excellent stability.

Smooth flowing and powerful:

The closer rotor spacing of just 246mm (12 rotors in 3m) helps spread the torque better, reducing power draw. The rotors' special timing means the tools dig into the soil to be tilled gradually, making it considerably easier for them to work their way through the soil and limiting vibration significantly. Placing rotors at a distance of 246mm from each other - unlike the competition who use wider spacing - results in much better soil finishing.

DELFINO & DRAGO

- Round blade-holders
- Universal three point hitch
- Rear levelling bar with mechanical central adjuster installed on the roller
- Optional APV seeder available
- Cage + Packer rollers available

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
DL-2000C	2.0m	60-100hp	\$19,656	\$21,622
DC-3000C	3.0m	90-150hp	\$27,400	\$30,140
DC-3000P	3.0m	90-150hp	\$30,600	\$33,660

DOMINATOR RAPIDO

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-DM-RAPIDO-3000C	3.0m	110-200hp	\$35,940	\$39,534
MG-DM-RAPIDO-3000P	3.0m	110-200hp	\$39,530	\$43,483

- Round blade-holders with **quick change blades**
- Rear levelling bar with mechanical central adjuster installed on the roller
- Heavy duty gear-tray with double reinforcement
- Cage and packer rollers available
- Optional APV seeder available

HYDRAULIC FOLDING POWER HARROWS

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-FALCO-4600C	4.6m	110-220hp	\$55,850	\$61,435
MG-FALCO-4600P	4.6m	110-220hp	\$59,590	\$65,549
MG-GABBIANO-5000P	5.0m	160-260hp	\$85,336	\$93,870
MG-AQUILA-6000C	6.0m	200-300hp	\$99,498	\$109,448
MG-AQUILA-6000P	6.0m	200-300hp	\$105,395	\$115,935

- 6mm trough with additional 5mm reinforcement for exceptional strength and reliability
- Convenient hydraulic transport lock, for optimal road safety
- Rotor shaft supported by wide spaced ball bearings
- Standard with cage roller
- Optional APV available on Falco and Gabbiano

ROTARY HOES

VIRAT PRO

- PTO shaft with slip clutch
- Side gears drive in oil bath
- Offset front bar hitches

MODEL	WORKING WIDTH	MIN/MAX HP
MG-VIRAT-185	1.85m	50-80hp
	PRICE EX. GST	PRICE INCL. GST
MG-VIRAT-185	\$7,884	\$8,672
MG-VIRAT-205	\$8,015	\$8,816

B & C SERIES

- PTO with Slip clutch
- High rotor to body clearance
- Multi-speed gearbox - 540/1000 PTO
- Side gears drive in oil bath
- Cat II hitch
- Optional rear cage & packer roller available

MODEL	WORKING WIDTH	MIN/MAX HP
MG-B-180	1.85m	50-100hp
MG-C-205	2.10m	60-130hp
MG-C-230	2.50m	60-130hp
MG-C-250	2.60m	60-130hp
	PRICE EX. GST	PRICE INCL. GST
MG-B-180	\$14,076	\$15,484
MG-C-205	\$17,362	\$19,099
MG-C-230	\$18,782	\$20,661
MG-C-250	\$19,546	\$21,501

SC SERIES

- PTO shaft with cam clutch
- Multi-speed gearbox
- Side gears drive in oil bath
- Heavy-duty spherical roller bearings
- **Optional rear Cage and packer rollers available**

MODEL	WORKING WIDTH	MIN/MAX HP
MG-SC-300	3.10m	130-170hp
	PRICE EX. GST	PRICE INCL. GST
MG-SC-300	\$31,886	\$35,075

SC COBRA

The COBRA ROTOR is used for work in hard, dry condition, following ploughing or on compact soil.

The closely packed blades on the rotor ensure clods are broken down perfectly to a fine tilth, creating an excellent seedbed.

SC CONDOR

The CONDOR ROTOR caters to the requirements of all those farmers dealing with very stony ground as the special shape of the tools prevents the sort of damage the blades would normally be exposed to, minimizing the downtime that comes with replacing broken blades.

PRICE

MODEL	DESCRIPTION	PRICE	PRICE (inc GST)
MG-SC-COBRA/CONDOR-3000	3.1m Rotary Hoe, 170hp Multispeed Gearbox, fitted with Cobra or Condor Rotor	\$36,200	\$39,820
MG-SC-COBRA/CONDOR-3000C	3.1m Rotary Hoe, 170hp Multispeed Gearbox, fitted with 450mm cage roller	\$42,519	\$46,771
MG-SC-COBRA/CONDOR-3000P	3.1m Rotary Hoe, 170hp Multispeed Gearbox, fitted with 500mm packer roller	\$45,732	\$50,305

G SERIES

MODEL	DESCRIPTION	PRICE	PRICE (inc GST)
MG-G-300	3.1m Rotary Hoe, 270hp 258 rotor rpm Gearbox with integrated fan	\$49,810	\$53,801
MG-G-300C	3.1m Rotary Hoe, 270hp 258 rotor rpm Gearbox with integrated fan & Cage Roller	\$56,200	\$61,820
MG-G-350C	3.6m Rotary Hoe, 270hp 258 rotor rpm Gearbox with integrated fan & Cage Roller	\$64,320	\$70,752

- Single-speed gearbox 100 rpm PTO with cooling fan
- Rotor revolutions (RPM) 258
- Central direct PTO shaft
- Cam clutch side PTO
- Rollers Hydraulically adjusted

PANTERA L

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-PANTERA-420L	4.2m	190-320hp	\$92,000	\$101,200

The Pantera L series of Rotary Hoes has been designed as an entry level Rotary Hoe suitable for all farming practices. It uses many of the design features of the already proven heavy duty Pantera and refined these for a more basic spec folding Hoe. With road transport an issue, the Pantera L is perfect for the farmer wanting to upgrade to a wider hoe and still be road legal. Optional anti-clogging kits are available to help with the more challenging conditions the hoes can sometimes operate in. With a gearbox rated at 320HP it is ideally placed to suit most tractor sizes.

- Central fix PTO shaft and cam clutch side PTOs
- Double side gear drive in oil bath
- Heavy duty spherical roller bearings
- **Optional anti clogging liner available**
- **Optional rear wheels available**

PANTERA

- Duo cone seals
- Gear lateral drives in oil bath
- High clearance between rotor and top of cover
- Standard cage roller/optional spiral or packer available
- **Optional anti clogging liner available**
- **Optional rear wheels available**

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-PANTERA-470C	4.78m	220-380hp	\$114,082	\$125,490
MG-PANTERA-520C	5.28m	240-380hp	\$121,467	\$133,614
MG-PANTERA-570C	5.78m	260-380hp	\$128,654	\$141,519
MG-PANTERA-620C	6.28m	280-380hp	\$134,521	\$147,973

SPEED DISCS

VELOCE

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-VELOCE-200C	2.0m	60-80hp	\$25,972	\$28,569
MG-VELOCE-250C	2.50m	80-90hp	\$30,524	\$33,576
MG-VELOCE-300C	3.00m	100-110hp	\$34,058	\$37,464

MG-VELOCE-400C	4.00m	140-150hp	\$43,911	\$48,302

- Maintenance free, grease filled Agri hub bearings
- Adjustable side deflectors and discs ensure a perfect finish in all conditions
- 510mm individually rubber mounted discs
- Standard cage roller
- Optional APV seeder platform available

VELOCE HYDRAULIC FOLDING

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-VELOCE-400C	4.0m	140-150hp	\$65,302	\$71,832
MG-VELOCE-500C	5.0m	150-200hp	\$75,348	\$82,882
MG-VELOCE-600C	6.0m	180-240hp	\$81,795	\$89,974

- 3 point hitch CAT 3N ISO
- Hydraulic folding frame
- Rear roller mechanical adjustment
- 510mm individually rubber mounted discs
- Lighting and warning board kit
- Optional APV seeder platform available

VELOCE TRAILING

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-VELOCE-T-500C	5.0m	160-220hp	\$112,039	\$123,243

MG-VELOCE-T-1000C	10.0m	300-400hp	\$231,000	\$254,100

- **New 10m ISOBUS model**
- Hydraulic folding frame
- CAT.3 Ø 50mm towing eye
- Rear roller hydraulic depth adjustment
- Wide gang spacing (800 mm) reduces clogging
- Double cage roller

*7m Pictured with optional front wheels

HEAVY DUTY DISCS

UFO

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-UFO-250C	2.5m	110-140hp	\$49,193	\$54,112
MG-UFO-300C	3.0m	150-170hp	\$56,385	\$62,023
MG-UFO-350C	3.4m	170-190hp	\$61,215	\$67,336
MG-UFO-400C	4.0m	180-200hp	\$68,495	\$75,344

- 2 rows of independent Ø 610 mm discs, dampened on vibratings C tine
- Adjustable side limiting boards (left and right)
- Maintenance free "cultihubs"
 - bearings with double rank of opposed spheres
 - oil lubrication
 - waterproof mechanical bearings

MODEL	WORKING WIDTH	MIN/MAX HP	PRICE EX. GST	PRICE INCL. GST
MG-UFO-F-400C	4.0m	160-220hp	\$123,690	\$136,059
MG-UFO-F-500C	5.0m	200-280hp	\$142,615	\$156,876
MG-UFO-F-600C	6.0m	250-360hp	\$166,530	\$183,183

- 2 rows of independent Ø 610 mm discs, dampened on vibratings C tine
- Adjustable side limiting boards (left and right)
- Twin rear roller
- Maintenance free "cultihubs"
 - bearings with double rank of opposed spheres
 - oil lubrication
 - waterproof mechanical bearings

Hydraulic drawbar with CAT.3
Ø 50mm articulated eye

APV SEEDERS

- Pneumatic seeder with centralized distributor
- Electric or hydraulic fan drive
- Counter plate, calibration bag, scale for seed
- Hopper agitator
- Dosing roller for large seeds
- Dosing roller for small seeds
- Platforms available to suit Maschio models
- Optional sensors for speed + auto on/off

MODEL	WORKING WIDTH	MIN/MAX HP
APV 300L	3-6m	n/a
APV 500L Electric	3-6m	n/a

Control Box 5.2

GIGANTE PRESSURE

The Gigante Pressure direct drill has been designed to sow in more challenging conditions. Be it dry/wet or high residue, the seed placement will ensure optimum germination with minimal ground disturbance. This is particularly noticed when direct drilling grass paddocks.

- Pressurized bins
- Individual row units for constant sowing depth in undulating ground
- 6 inch row spacing, single disc with sowing coulter
- Seed + fertiliser bins

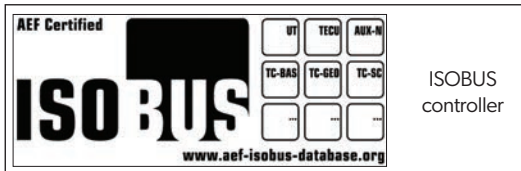

Single shot seed and fertiliser distribution system

MODEL	WORKING WIDTH	MIN HP	PRICE EX. GST	PRICE INCL. GST
MG-GA-GIGTE400-ED26	3.78m	150hp	\$212,652	\$233,917
MG-GA-GIGTE600-ED40	6.09m	200hp	\$297,864	\$327,650

Central greasing allows for faster and easier maintenance.

Single shot seed and fertilizer distribution system.

New depth gauge wheel for both open and closed operation depending on soil types etc.

Press wheel has independent mount so always improves seed to soil contact.
